## About This Game

Even if these girls are outrageously gorgeous, they are so well known for the very reason that nobody could ever manage to conquer them.

Therefore it will be a tough challenge, nothing - and nobody - can be taken for granted.

The game will make the player face some decisions, and by directly controlling his character's dialogues he will unlock specific reactions.

So are you ready to start this rich and intense adventure where for once your choices really matters?

Our game offers more than 40 primary and secondary choices. These choices will positively and negatively influence how the story unfolds.

- Take control of our main character; be the one to decide his dialogues. "Be good" or "bad", it's up to you!

CHOOSE CAREFULLY  
WHAT TO  
SAY

- Our girls will react differently depending on the situation!

OUR GIRLS WILL REACT  
DIFFERENTLY

- But obviously, there is much more! Other than making good and bad choices, the player will have the chance to unlock specific personality traits, as his behavior is shaped.

Also:

- Unlock 15+ Locations and backgrounds made by our artist Ria (winner of the "2015 Last Draw" nationwide anime-style illustration competition).
  - 30+ Artworks made by our artist Bicio (winner of the "2015 Latin American Manga contest").
    - Trading cards & Achievements.
    - Unlock and listen to our soundtrack whenever you want!
    - Collect secret artworks and bonus scenes in our Art Gallery.

Each artwork and background of our Visual Novel is available in 4k ULTRA HD resolution, which offers clearer and more detailed images even at lower resolutions.

I got this game as part of a bundle and was pleasantly surprised. I hear what the negative reviews are saying, and agree to a point, but the artwork, music and style of the game hit all the right spots for me. It's creepy in a non gory way, the puzzles are fine, not great. The mechanics feel a little clunky, as well, but all of that was overshadowed for me and I really enjoyed my playthrough. Definitely worth grabbing on sale, or in a bundle like I did.. old-school RPG masterpiece. Fun tower defense game that succeeds where a lot of other TD games have failed. It is smart in how ramps up the difficulty and has a great "one more time" feeling. Wonderful game for the price.

#### Quibbles:

\* Make sure you have a good CPU, especially if you're running the Vive Wireless Adapter. I have an i5-65k with a 1080, and I had to scale the graphics way back to avoid the fuzzies.

\* Love the flexibility in where I put the towers, but dropping them, they sometimes float a little off if I don't hold my hand exactly still.

\* I would appreciate being able to pick up towers without bending all the way over.. Please, avoid this game. After so many patches, framerate hitches are not fixed. Graphics are worse than Dirt 2 and framerate is not good. Physics are inconsistent.

. Pretty amazing game, if you're into hard learning curve games that pay off competitive wise later on go for it, just don't give up the first days

Having played a few visual novels in my time I can recommend this to anyone trying to get into the visual novel scene.

This is a perfect "starter" for anyone that isn't sure what a visual novel is. For those a bit more experienced it's still a pretty entertaining and easy to read book in fact that's what makes it good, it's easy, to read.

Its story is easy to follow, the visual style also keeps it fresh and every mini plot within each episode keeps every episode interesting so you never get bored.

I'd say it's a nice little ride from beginning to end, enjoy it, it's worth the price and the buy.

Only downside is it's got no voice acting and the music is a hit/miss thing depending on your tastes. Its sound quality can also be a little blasting even when you've got the volume low.

Still, it's a good ride no catch required.

I'd recommend it to anyone, honestly.. How do I refund it? Fun VR platformer. You feel compelled gather all the scrolls in the levels. There's a lot of variety in the quests and good times to be had. Just try the demo, I was sold. Super looking forward to the full release.. OK game. Gives you what you expect without shining at any aspect, but without sucking also. It's one of those games that needs a review between negative or positive. But since there is none, for sure deserves a positive much more than a negative.. I have to say that even in Early Access I've been able to enjoy this game, although it's a bit of a struggle for me as I'm not as clever as some of you! Building and wiring a robot can be surprisingly fun. The developer has been active adding new content and upgrading and tweaking (and yes, fixing) the game and at final release it's going to be quite interesting for a lot of folks, although as I said, very challenging. If you liked games like SpaceChem and Infinifactory, download the demo and give it a look.. I own several Chessboards IRL. Marble, wooden and glass ones, and THIS game captures the feeling I get playing them.

It's a beautiful game. Really feels like the game of kings, unlike other comic-like chess games on steam. Feels like the devs take it serious. It's made of beautiful graphics and environments. Even though it could have more rooms to choose from, they really know how to make a beautiful setting to play chess.. You can buy it for the achievements.

All the girls have the same abs, lol.

. pretty cool if you like 40k and giant robots.

Right now it's pretty much just PVE I wish they would release the campaign and full game.. Joint joint joint damnazione joint joint damnazione joint joint joint joint joint joint joint damnazione joint joint joint joint joint.

If that sentence didn't excite you, you probably won't like the script for this game. The writing feels like a first draft where the second draft was just the same thing with bad attempts at slang shoehorned in. There are multiple conversations where the word joint feels like it's being used every third word. The acting is only slightly better than the script. The only voice actor that felt like he belonged in a game that people charge money for is a character that you have a brief phone conversation with and (as far as I was able to get in 6 hours) never see.

The gameplay feels like something from the 90s. The screen is slow to move and so is the character. If you're in a large room with a lot of things that can be clicked on, you'd better brew some coffee because you'll be waiting a while as Del Nero slowly plods across the room. Fortunately, while examining things in smaller rooms, you get to see him occasionally flap his arms like a chicken, but I don't think that was actually supposed to happen.

Despite the script, the story seemed fairly good for the first little while, but occasionally you have to make some leaps in logic to figure out where to go next, and if you save and come back or miss a line of dialogue, you may as well just throw darts at the map because there's no real way to figure out where to go next. While the story was decent it eventually started to drag by the time I made my third trip to the docks, so I took a look at a walkthrough and said, "Damnazione, I've still got at least a third of this thing left? I'm getting out of this joint!" Delete local content, move to the "Bad" category.
