It's an amazing game of multiple decisions - you can follow your heart or your mind, you can be evil or angel, it's up to you!. This game is like sitting next to the fireplace, warm cozy, charming, overall just nice.

WITH the 18+ patch its like sitting naked on a bear skin rug next to a fire place.

I would reccomend the bear skin rug upgrade as well as the fireplace.

18 hours in, 3 hour game

18/3. Amazing steampunk atmosphere.

Challenging puzzles.

Interesting story to discover.

This is a gem.

<https://youtu.be/gwL5KuBxeR8>. This is the most 70s anime thing I have ever seen and it's beautiful. It's fast, it's exciting, and the four different difficulties mean normal people (like me!) can actually have a shot at beating it. I also really dig the combining system, gives the game a bit more weight with that added decision making. It's short, but something you can always come back to and have a blast with. Highly recommended, unless you are just the worst at shoot-em-ups and bullet hells, even more so than me.. Eh, I like the art style and the concept, plus I'm getting intense Fran Bow/Broken Age/Bulb Boy vibes. It's just really clitchy. And the conroles are bad. WASD, except W and SPACE don't work so you have to use the arrow keys. And the checkpoints could be better.

[As I said, I REALLY like the concept and it has potential to be a great game, just not at the moment. ./.](#) Older game, reminds me of Advanced Wars so I gave it a chance. The game did not initially let me down.

[The controls work just how I hoped, and the cards added extra tactics to battle.](#)

[While playing in the tutorial, I noticed that some of the cards do not work properly. Repair vehicle cards do not act when they are triggered. Everything is properly selected, click confirm, and a hollow clicking is heard as though something isn't working.](#)

[Next came the zoom. Zoom became an issue after the tutorial ended. Scroll wheel wasn't letting the map zoom out far enough to see the map, little by little, the zoom got stuck closer in. When ending the first US campaign, the zoom got stuck so close I could only see a single square at a time. That's not a glitch. That's dehalibitating.](#)

[I was on my last move, so I got done what I could based on how I remembered the layout of the map. Lost a secondary objective, but whatever. Hopefully next map resets it.](#)

[Not a chance. Can't get to the next map. Staring at a card that's telling me I unlocked Brono, and neither the card's X nor the "click to procede" icon will clear the card from my screen.](#)

[The cartoons between maps are pretty low brow humor, but it is entertaining. The gameplay is exactly what I've been looking for to scratch the "Advanced Wars" and "European Battlefield \(Sega.\)" itch from my childhood. Hopefully the issues they have, will be fixed. The maps are fun. Besides for the glitches, I would like to see an "end mission" button when the main objective is finished, so you can continue to play for secondary objectives. Sometimes the secondafry objectives are out of the way, and I find myself accidentally finishing the mian objective, on my way to secondaries.. All The Reviews That Say That There Is Not Enough Content V We Haven't Got What We Were Promised Are False.](#)

This game is garbage. Both gameplay and story. Like the previous game this game is in 3D but unlike the previous game it uses the mouse to interact and somehow manages to ♥♥♥♥ up doing that. Mouse controls are so finicky and so broken. You need to be so precise and half the time it doesn't do what you want to do, it's complete ♥♥♥♥♥♥♥♥t. There are still action bits in the game, because that was such a ♥♥♥♥♥♥ing good idea the last time and combined the ♥♥♥♥♥♥♥♥t controls they are just the cherry on top of this♥♥♥♥♥♥♥♥cake of a game.

And the the story oh the ♥♥♥♥♥♥ing story. Around the half way point the story just stops giving a♥♥♥♥♥♥♥♥ And it's not like it was good before that. It's the most tone deaf, clown shoes nonsense mixed with an incredibly stupid doomsday plot. The amount of out of place goofy♥♥♥♥♥♥♥♥that happens in this game after the oh so dramatic scenes it has makes you ask were the script writers for this game writing the script with their asses.

No character has any motivation to do anything in this game. Anna Maria is such a useless dumb bimbo that even the NPCs don't acknowledge her existence. Nico is in this game for no other reason than because she was in other games. She has no reason to be here. If you are going to create another female lead to replace her why the ♥♥♥♥♥♥ would you bring her back game? George; why the ♥♥♥♥♥♥ is he doing anything that he is doing in this game? He has not single reason to do what he does. What? He want to ♥♥♥♥♥♥ the dumb blonde bimbo? Is that the reason why he hops around the world risking his life? ♥♥♥♥♥♥ing hell this story is garbage...

Even tough the 3rd game wasn't exactly great it had one thing that was going for it and that was the characters. That game for the first time in the series had some decent characters in it with decent animation and decent dialogue. This game oh no ♥♥♥♥♥♥ that, all of that's gone. Instead you get a bunch of life-sized dolls with no charm, wit or personality to them.

Don't play this♥♥♥♥♥♥♥♥♥♥ It's not like you'll need any background for the next game in the series. Even the Revolution Software knows this game was a pile of♥♥♥♥♥♥♥♥♥♥so they are ignoring it as far as the story forward is concerned.. good game, slightly similar to besiege but it has various aspects which make it a unique game, I personally enjoy using this game to destroy everyone and everything...but you know whatever :). A pretty cute game about using a slime to solve logic puzzles. Definitely worth a try when more levels are added in the future.. Worked fine until I equipped two swords and sold the old sword and the old boxing gloves. After that the game crashes everytime I try to start a fight. So I don't know a lot about the game but as far as I can tell the game has pretty good combat mechanics with some bugs and annoying stuff, like how easy it is to get caught in a midair-combo that you can't get out of and there goes your entire lifemeter. I would like to play more so If they can fix the bug that crashes my game and add more options for eyes, hair, some victory animations, skins, story etc this game has some potential. Can't recommend it now though.. olafmeister was not olaf from disney's 'frozen' uninstalled refunded 0/10. Cookie is a weiner. Not actually funny. Questions get recycled. So you eventually know all the answers.

This game is more fun when you play it as a troll.

My suggestion:

Make your 'lies' jokes about other players.

The person who wins is the person with the most likes.

Cookie sucks.. I had no friends.

I made a couple of friends.

My friends got me Golf With Your Friends.

We played a few games of Golf With Your Friends.

I once again have...no friends.

9/10

I'm going to cry myself to sleep again tonight.
