A: You can select "Exit Game" from the launch screen after you complete any in-game game or start a new campaign. After restarting your console, you will get a prompt to login to your console, at this point you can edit the save file by pressing the "save" button at the bottom of the screen. A: You can choose the "Save Game" from the beginning of the loading screen. Degradation of phenothiazines by oxyradical-containing oxidants. The oxidative degradation of three phenothiazines (phenazine, thiethylperazine, and promethazine) in aqueous solutions has been examined. Thiethylperazine, which is used as a food preservative in the form of its sodium salt, is the most stable compound in this oxidation system (half-life of 9.2×10^5 years). The degradation of the nitrogen-containing drugs

phenazine and promethazine proceeds via a similar pathway, while the degradation of promethazine proceeds in the absence of nitrogen. The presence of thiyl radicals as the major reactive intermediate in the oxidative degradation of the three compounds was confirmed by EPR spectrometry. The results obtained using peroxides and lipid-derived hydroperoxides as oxidation agents lead to the hypothesis that the degradation is initiated by Fe(II) catalyzed one-electron oxidation, followed by oxidation by oxidized lipids.

Mr. Platt's Monday Morning Musings Menu Precious Memories Last summer, as millions of Americans milled about at beaches and parks during a rare August heat wave, people with good memories of their youth took cameras out to capture the last days of summer. My sister Liz and I took our cameras. We had planned a vacation to New England with my parents, Liz's parents and our families. But due to work conflicts we didn't get to make it happen, so I snapped this picture as a memento to remember what summer should have been: I've often said that if I could bottle my time at CPEI and then pass it on to another kid,

I'd be willing to live the rest of my life on a marginal income so that I could give my kids the same opportunities I was given. A friend of mine from high school didn't have a place to stay in August 2004 when
